St. Louis' majority at first meet, Wed. Feb. 8, 1908... 175

Total majority at both meets 406  
The conditions of the tourney called for the best two out of three series of games. St. Louis won in straight games.

The highest individual score made by the Saints at their second meeting with the Kams was 259, made by James L. Holt and Asai Jacobson. The second best individual score made by the winners was 256, Ed. McCorrison and S. Obraga being credited with this number of points.

For the Kams the highest individual score was 246, made by David Kama-uoha and D. Kalpo.

There were sixty competitors at the second meet, nine hands being played. The evening was rendered additionally enjoyable by good music.

At the end of the meeting three hearty cheers were given for both winners and losers.

Those responsible for the success of the tournament were: Thomas Treadway, Fukumura and C. M. Hardee, of the Kams and Messrs. Cowles, Perry and Hopkins of the St. Louis Alumni Association.

## THE CHALLENGE NOW ACCEPTED

The executive committee of the Honolulu Cricket Club met yesterday afternoon and decided to accept the cabled challenge for a game from the

**MITSUKA**

The giant Japanese wrestling champion of Hawaii, matched with Sailor Roberts for May 2.

captain of the S. S. Aorangi at Suva, probably on behalf of the team of English cricketers which have been touring Australia and who are now returning home.

Present were: Robert Anderson, J. R. M. Maclean, Stanley Beardmore, J. C. McGill, J. M. Tucker, J. H. Fiddes and H. M. Ayres.

The game will commence at noon and stumps will probably be drawn at 4:30 p. m.

Refreshments will be served on the ground.

There will be a game of cricket at Makiki on Saturday when the season will officially open. All interested in the game are invited to be present at the Makiki field for practice.

The team to oppose the visitors will be announced tomorrow.

Eddie Fernandez left for Kauai last night by the steamer Mikahala and may not be back in time for the opening of the baseball season.

## The Log of the Anemone

June 24.—Last night about 10 o'clock, as I sat on the deck yawning with the captain, a meteorite fell not far from the yacht. I judged the distance by some clouds through which it fell, and which it illuminated in passing. It must have been of considerable size, as its path of light was very wide and brilliant. We also saw the Southern Cross, Tutu and Stimson for the first time in their lives. They were much interested.

This is a beautiful day, the best we've had on the cruise. The Anemone is bowling along nearly eight knots an hour, the wind is cooling, we are all happy. The thought of racing has become of minor importance, we rejoice in the delight of sailing. Comfortably seated in the steamer chairs, we wonder why there ever was any worry in the world.

A school of porpoises has just come from the Islands to greet us. What glorious sport they have darting about the yacht's bow! They breach clear of the water as if their three or four hundred pounds of solid flesh were no burden to them at all.

We are looking for the land now, and the captain thinks that he can see "the loom" of it. We landlubbers can't see anything but a cloudbank.

June 25, early a. m.—Last night we saw a startling cloud effect which moved even the stolid captain to expressive admiration. On the edge of a large, dark cloudbank appeared in evening dress with a large fur mantle over her shoulders. As the picture was gradually diffused, the lady became old. Finally it represented an old ragamuffin hobbling on a crutch. The picture was at all times so strikingly real that we all agreed in our interpretation.

This morning at five we had land in sight, the Island of Molokai on the port bow. The captain has certainly done good navigating: We are off the channel between the Islands Molokai and Oahu, just where we want to be. A good breeze is blowing and we ought to reach Diamond Head, on Oahu, by noon.

We were startled and perplexed for a moment by what seemed to be a schooner off our weather quarter. That could only be the Lurline! After a while a man was sent aloft with

glasses. He reported a huge breaker that sent its spray thirty feet in the air. The racing instinct has been somewhat revived by the incident: we are again wondering what our place may be in the race. When I write again, before many hours, we shall know.

June 25, evening.—We made Diamond Head light at 12:47, making the trip in fourteen days and forty-two minutes. As we rounded the Head a launch came to meet us, with Commodore Sinclair and his guests aboard.

The Lurline had come in during Saturday night, beating us by thirty-six hours! Her best record was 265 miles, made on the day when we made 225. She ran freer, more south than we, and later had the wind abeam all the way, while we had it over the stern where a fore and after is somewhat helpless. Enthusiasm for the quick passage of our rival subdued any pangs of disappointment we might have felt, and we joined heartily in a cheer for the Lurline—led by Tutu. This gentleman is always much more eager to show his appreciation of another person's success than his own.

With his usual thoughtfulness, Commodore Sinclair brought us some newspapers and a big lump of ice. We needed the ice very much when later we received our visitors, for it is quite warm in Honolulu harbor. La Paloma has not yet come in.

A large number of people came on board, and we received enthusiastic greetings. A native band played and sang Hawaiian airs for us, young boys around the boat dived after silver coins tossed overboard, and the wharf was lined with hundreds of people. Among our visitors were several Wilders, two cousins and a brother of my old friend Jim Wilder, of Harvard Glee Club fame. The brother is not so stout as Jim, but apparently just as jolly and good natured. He says that he is known to America and adjacent countries as "Jimmy's brother."

Hobson, the commodore of the Hawaiian Yacht Club, came to bid us welcome, and with him several enthusiastic yachtsmen. They all seem to be royal good fellows, eager to do all they can to make things pleasant for us. When our guests had left the Anemone, we went ashore, steering straight for post and cable offices, to send word of our safe arrival to the dear ones at home. Then we took a carriage for a drive around town.

## OUTRIGGER MEN TO MEET

**Fishermen Also Invited to Be Present at Gathering This Afternoon.**

The first meeting of the Outrigger Club will be held this afternoon at the rooms of the Promotion Committee at one o'clock. More than one hundred members have already been secured.

An election of officers will be held and the Club formally organized. Active steps will probably be taken at once looking toward the improvement of the club grounds at the Seaside Hotel, Waikiki, which Mr. Macfarlane is permitting the club to occupy. A hau tree lanai will be commenced and a portion of the Manoa stream overflow filled in and the club grounds protected by a retaining wall.

The Outrigger Club will probably demonstrate its usefulness during the visit of the fleet. It is proposed to order at once a large number of surfboards which will be placed at the disposal of the naval visitors during their stay, and the boys who ride the surf boards at Waikiki will act as tutors to the sailor boys.

A number of outrigger canoes will also be collected on the beach before the club grounds, and many of them placed at the disposal of the officers of the visiting fleet.

The club dues will probably be not more than five dollars per annum, and a large junior membership is expected from the different schools and colleges. Everyone will now have a place to keep his surfboard or canoe at the Seaside, so there will be no excuse for any retrogression of the great national sport of Hawaii.

Everyone interested in the preservation of Hawaii's most typical and attractive sport is invited to attend the meeting at the Promotion Committee rooms this afternoon at one o'clock.

## THE WRESTLERS IN TRAINING

Mitsuka, the wrestler, had, up to last night, received forty-two different offers to train him for his coming wrestling bout with Sailor Roberts. The Japanese are greatly interested in the match, and are already betting on their countryman's chances.

He intends to keep his training methods secret, but it is said will abandon the Japanese style of training in favor of the white man's method. Just at present he is engaged in hardening his abdominal muscles and in improving his wind.

Sailor Roberts is also playing for wind. He realizes that the bout is apt to be of long duration, and that he will require to be in the very best of form in order to turn the tables on the husky Jap.

Roberts is 27 years old, and was born in Switzerland, his father being a Scotchman and his mother a German. He has been in the United States three years, of which time two years have been spent in Uncle Sam's army.

Today he will get down to work in earnest and may be seen in action at the Healan bathhouse between 1 and 3 p. m.

## Short and Sweet

At a meeting of the Honolulu Baseball League held yesterday noon, Bert Bower was chosen to act as official umpire during the coming season. The schedule was not presented owing to inability on the part of the Kamehamehas to ascertain whether their players in the employ of the Rapid Transit Company would be able to get away from work in order to fill their baseball engagements.

Bird and Richardson who box at Fort Shafter on April 30 are featherweights. Pool and Murphy are heavyweights. Both pairs of men are looked to furnish some rattling sport.

Dr. Hand is arranging a new schedule by means of which the leaders in the handball tournament may decide the championship. The leaders in the tourney are M. C. Webster, J. Q. Babbist, H. S. Chandler, M. V. De Colto and Mark Johnston.

Dr. Hand of the Y. M. C. A. suggests a big track and field meet to be given during the stay of the fleet and in which both local and visiting athletes may participate.

George Osborne is still kiting.

The Riverside Baseball League will open their season on Sunday. The opening game will be between the Palamas and the Kaalas. The other league teams will be the Chinese Alohas and the Chinese Athletics.

The Palamas believe that they have signed a wonder in Manuel G. Correa. His specialty is first bag.

The band will play at the opening of the Newspaper Baseball League at the ball park on May 10. An effort will be made to have Acting Governor Mott-Smith pitch the first ball.

Cricketers R. A. Jordan and D. L. Withington are under the weather and may not be able to take part in the opening of the season tomorrow.

There is said to be a new cricketer in town in the person of C. Egan.

## COMPOSITION OF ENGLISH TEAM

The team of Marybone cricketers supposed to be aboard the S. S. Aorangi, and whom the local cricketers are preparing to play, includes the following:

Fane, Hobbs, George Gunn, Hutchings, Hardstaff, Crawford, Braund, Rhodes, Young, A. O. Jones, Barnes, Blythe and Fielder.

The team includes some of the best living exponents of England's great national game.

## HEINE AND SCOTT MATCHED

The exhibition sparring match which was to have taken place at the Orpheum last Saturday was abandoned on account of the indisposition of one of the principals. Rather than put on a boxing bout which was not first-class the management substituted an additional wrestling match, which gave universal satisfaction.

On May 2 there will be a scientific sparring exhibition of four rounds duration, between Young Scott and Al Heine. Both boys are well known here and are clever with the gloves. They have appeared in the local ring on previous occasions, and may be relied on to furnish a tip-top exhibition.

Both Scott and Heine will practice every day from now on, so as to be in the best possible shape to do themselves justice on the evening when Mitsuka and Sailor Roberts clash.

## NOTICE

Dear Sir,—In reply to the question put to me today by your Mr. Wight, I have to say that I have no reason to think that the fire which destroyed my residence on the night of the 14th inst., was caused by gas. I will rebuild on the site of my former residence at once, and it is my intention to use your product in the new house for illuminating, as well as for fuel. For either purpose I regard gas as BETTER and, when used with discretion, CHEAPER, and quite as SAFE as any other product.

Yours truly,  
A. S. HUMPHREYS,
